# THE RADIANT AWARDS

## Innovation & Vision in Identity Systems

APSCA's 2nd Radiant Awards will be presented at the reception dinner for the 5th Border Management & Identity Conference (5th BMIC) in Bangkok on 12 December 2018.

- Attended by government identity authorities from around the world
- Awards submissions from governments agencies and identity experts
- Judges with core expertise in border and identity management systems
- A unique channel to communicate and engage with government
- Promotional opportunities in a social and business environment

APSCA designed the Radiant Awards to reward end-user organisations that operate public sector identity schemes together with their partners that provide supporting technologies, solutions and integration. The Radiant Awards comprise several awards that recognize vision, creativity, thought leadership, technology innovation, implementation best practices and service delivery for citizens and residents.

APSCA's 1st Radiant Awards in 2015 received a total of 26 entries from 19 identity authorities in Asia, Europe, Africa and the Americas. Following judging and evaluation by a panel of independent identity experts, 13 Radiant Awards were presented to the winning government authorities and their solutions provider partners from Aruba, Bhutan, Botswana, China, Estonia, Hong Kong, Macao, Malaysia, Nigeria, Sri Lanka and Qatar.

### Unique Industry Awards

The Radiant Awards recognise excellence in planning, design, implementation and operation of national electronic identity schemes, applications and services. These unique industry awards are designed to reward end-user organisations that operate public sector identity schemes together with their partners that provide supporting smart technology and identity solutions.

### 9 Awards in 4 Categories

The Radiant Awards comprise up to 9 awards in 4 categories that recognise vision, creativity, thought leadership, technology innovation, implementation best practices and service delivery for citizens and residents. Please visit the website [www.apsca.org/radiant-awards](http://www.apsca.org/radiant-awards) for details of the awards, categories and evaluation criteria.

## FOCUS ON END-USERS AND TECHNOLOGY PROVIDERS

Entry forms for the Radiant Award evaluation process can be submitted by either of the following:

### 1- NOMINEE

that is an end-user organisation that operates an electronic identity scheme for, or provides electronic identity services to, citizens or residents

### 2 - NOMINATING ORGANISATION

(including identity solutions providers) that wishes to propose a nominee that is an end-user organisation that operates an electronic identity scheme for, or provides electronic identity services to citizens or residents.

A key objective of the Radiant Awards is to focus on end-user customers, that are typically government identity authorities, as well as their technology providers, in rewarding visionary applications of identity solutions to solve real-world problems.

### Expert Judges

Entry submissions will be evaluated by a panel of judges with core competencies and experience working in identity schemes and applications, led by the Chairman of APSCA.

### Awards Ceremony

The 2nd Radiant Awards ceremony will be held at the reception dinner for the 5th Border Management & Identity Conference (5th BMIC) in Bangkok on 12 December 2018 at which all shortlisted entries will be acknowledged. The awards ceremony will be attended by representatives of nominee end-user organisations, nominating organisations, government identity authorities and leading identity solutions providers.

### Presentation and Acceptance of Radiant Awards

Radiant Awards will be accepted by the government agency (nominee) that implemented the electronic identity scheme together with their key identity solutions providers (nominating organisations). If the nominee is not present at the Radiant Awards Ceremony then the award can be accepted on their behalf by either a nominating organisation or any other organisation assigned by the nominee.

### Promote your Achievements in Electronic Identity Schemes

As the Radiant Awards are designed to focus on organisations providing identity services to citizens and consumers, APSCA will promote the awards to our database of government agencies and identity solutions providers around the world. Government agencies [nominees] will be invited to complete entries submitting their electronic identity schemes for consideration. Identity solutions providers [nominating organisations] are invited to complete entries nominating their customers for Radiant Award entries.

# FIND OUT HOW TO ENTER TODAY!

Nominees or Nominating Organisations should Start Now by visiting the APSCA Radiant Awards website and signing up for an account in order to submit and validate an entry for evaluation before the deadline of 31 July 2018: [www.apsca.org/radiant-awards](http://www.apsca.org/radiant-awards)

## BECOME A HEADLINE SPONSOR

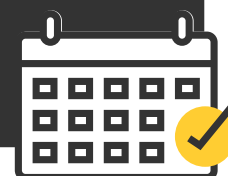

The Radiant Awards are an excellent opportunity for leading identity solutions providers to communicate information about their company, their brand, and their products and services to their customers around the world.

There will be a limited number of opportunities for technology solutions providers to become Headline Sponsors of the 2018 Radiant Awards. Companies that would like to find out how to become a Radiant Awards Headline Sponsor should contact Veronica Ribeiro at APSCA: [vribeiro@apsca.org](mailto:vribeiro@apsca.org)

## KEY DATES

12 February	Official announcement by APSCA newsletter, 2018 Radiant Awards website opens
14 May	Opening for submissions for entries
31 July	Deadline for submission of entries
21 August	Candidates announced, evaluation and judging begins
21 October	Judging finishes
12 December	Radiant Awards Ceremony

# CHOOSE YOUR RADIANT AWARD CATEGORY

There are 4 categories of Radiant Awards and 3 of the 4 categories have more than one award available. Entrants for the Radiant Awards should choose the primary category in which they wish to enter their submission but the same entry can also be entered for consideration in a secondary category. So the same identity scheme can be submitted for consideration in 2 different categories.

## RADIANT VISION AWARD

(1 Award)

The Radiant Vision Award recognises forward thinking ideas that have led to significant innovations in how electronic identity schemes are planned, designed, developed or deployed.

## RADIANT PIONEER AWARD

(2 Awards)

The Radiant Pioneer Award recognises pioneering new uses or applications of smart technology in public sector identity schemes. The technology may or may not be newly developed. Up to two awards are available.

## RADIANT SERVICE AWARD

(2 Awards)

The Radiant Service Award is for a public sector electronic identity scheme that has consistently delivered exemplary services to citizens and residents over a period of at least 5 years. Up to two awards are available.

## RADIANT LAUNCH AWARD

(4 Awards)

The Radiant Launch Awards are for the 4 most significant deployments (excluding pilots) of public sector identity schemes, applications or services in the last 18 months. Up to four awards are available depending upon the quality of submissions.

For further information about the Radiant Awards, please visit our website [www.apsca.org/radiant-awards](http://www.apsca.org/radiant-awards) or contact Veronica Reibeiro at [vbeyro@apsca.org](mailto:vbeyro@apsca.org).
